

The Lingua-U Codex

Excerpt A

"Magic" grows up. A new, magical language is coming. When complete the Lingua-U Codex will provide all the essential information for using and further developing a meta-language of subtle energy based on the Integral Magic system. This system, which is inspired in part by the ancient *Canon of Supreme Mystery*, is explored in *The Kalendar Series* of books (<http://thekalendar.com>).

The following document contains the 729 hexagrams depicting the Major Meta-Words of Lingua-U as well as all the half-day stations of the Kalendar. Individuals wishing to study Integral Magic or Lingua-U may immediately begin to incorporate these elements into their work or practice. The contents are subject to revision to incorporate feedback from the community.

I offer much gratitude to Ken Wilber's *Integral Spirituality* and Terri O'Fallon's StAGES In-Depth training for many insights which have proved indispensable to this Construct.

Instructions

1. Lingua-U (Adjunctive Language)

Use the following 729 meta-words of Lingua-U as an adjunct to your language as needed to describe the Kosmic Coordinate of a particular word as you are using it. Superscript is optional.

Note: The word spelled $\text{||}|\text{||}$ or "ash" or "@f" is the connector.

Example: The toddler's rampage was marked by a certain sort of self-involvement^{@f-ber-li}.

2. Phonosemantic Meditations

(a) Centering Prayer

Incorporate the phoneme for the proper date/time on the Kalendar into your Centering Prayer practice. Be still and silent with the Divine. Sit with the intention to be in the presence of the Divine. Use the day's phoneme to represent God/Goddess in the prayer.

(b) Full Kalendar Meditation

Sit calmly and relax. Pronounce each of the 729 Major Meta-Words of Lingua-U in succession by memory if possible. Have the intention of invoking and feeling into the Kosmic Coordinate of each meta-word. Allow the sounds of the language, especially their method of kinesthetic production, to guide you in embodying the attributes of the station.
